Europe	Diagnosis	Wabco_HD	**Version: V6.50** **Highlights:** 1. Support TEBS-E, TEBS-D, VCS II and TCE trailer system. **Content:** 1. Support TEBS-E, TEBS-D, VCS II and TCE trailer system. 2. Adds functions such as ABS sensor, pole wheel test, pressure test, brake lining wear display in TEBS-E, TEBS-D, VCS II, TCE systems. 3. Adds functions such as Reset odometer, Service interval, Calibrate rss modulator installation position in TEBS-E,TEBS-D,VCS II systems. 4. Supports read, modify, backup, restore functions for coding in TEBS-E,TEBS-D,VCS II systems.			√	√	√	√
Europe	Diagnosis	KNORR TRAILER	**Version: V4.50** **Highlights:** 1. Adds basic functions including version information, DTCs, freeze frames and live data in TEBS Gen1 and TEBS Gen2 systems for Knorr-Bremse trailer series. (1) Adds 7 active tests such as Pressure component check, Wheel speed sensor air gap speeds, AD sensors check, Axle modulator Test, Auxiliary function tests, Roll Stability Program (RSP) -installation check and Power supply and WL check for TEBS Gen1system. (2) Adds 7 active tests such as Pressure component check, Wheel check, Aux I/O check, Load Information, Leakage Test, Roll Stability Program (RSP) -installation check, Power supply and WL check for TEBS Gen2 system. 2. Adds 2 special functions such as Reset trip counter and Set next service for TEBS Gen1 system. 3. Adds coding function such as Information, Braking, Auxiliary outputs, Auxiliary input, RSP group data reading, modification, backup, restore, OEM file restore for TEBS Gen1 system. 4. Adds 5 special functions such as Reset trip counter, Set next service, Distance when module was exchanged, RSP installation test and Operational Data Recorder for TEBS Gen2 system. 5. Adds 2 special functions such as the group data reading, modification, backup, restoration, OEM file reading and restoration of Information, Components, Rear axle group braking, Auxiliary I/O, RSP & Safety and Miscellaneous.					√	√
Europe	Diagnosis	HALDEX TRAILER	**Version: V2.50** **Highlights:** 1. Adds EB+ 1st, EB+ 2nd, EB+ 3rd, UABS and ITCM system. 2. Adds basic functions such as version information, DTCs, freeze frames and live data. 3. Adds active tests such as Sensor tests, Sensor modulator tests, Push through tests, Leak test, EB+ soft docking, EBS pressure test, Lamp and auxiliary test for EB+ 1st, EB+ 2nd, EB+ 3rd, UABS and ITCM systems. 4. Adds the automatic identification function of Auto scan. 5. Adds special functions such as Display ECU modification records, ECU flash programing records, Brake pad maintenance, Odometer settings, Reset ECU for EB+ TRS, EB+ 1st, EB+ 2nd, EB+ 3rd, ITCM and UABS systems. 6. Adds coding function such as modification, backup and restoration for EB+ TRS, EB+ 1st, EB+ 2nd, EB+ 3rd, ITCM and UABS systems.					√	√
Global	Diagnosis	Wabco	**Version: V6.50** **Highlights:** 1. Support the online backup and restoration function of wabco coding. 2. Supports coding function of VCS II, TEBS-D and TEBS-E protocol. 3. Add 11 special functions.					√
